Don't forget to add 20c extra to help pay postage if your order does not amount to \$2 or more.

GREETINGS FOR 1956

"Thank you" is the most sincere expression I know to convey my appreciation of your friendship and patronage the past year. I hope the coming season will be a good one with health, happiness and prosperity for all and a lovely flower garden to share with friends.

And when you've weeded and planted and
pruned
To make of your garden a place well
groomed,
When with your scissors you've snipped here
and there
For the riot of blossoms some dear friend
will share,
Then a health-giving tiredness deepens
your sleep
And you waken refreshed when a garden
you keep.
With the kiss of the sun for pardon
The song of the birds for mirth,
One is nearer God's heart in a garden
Than anywhere else on earth.

—D. Francis.

I have lots of nice roots and bulbs but am rather short on some varieties so please name some to use as second choice if possible or give me permission to substitute. I will always give equal or better value.

All bulbs and roots are state inspected—guaranteed true to name and to reach you in good growing condition. If not satisfied when you receive them let me know at once and I will make adjustment. I cannot guarantee all bulbs to grow as too many things beyond my control can happen to them.

Parcel Post rates are very high but all orders amounting to \$2.00 or more are sent postpaid. If less than \$2.00 please add 20c to help pay postage.

DAHLIAS

Symbols used to describe type of bloom are as follows: (F.D.)—Formal Decorative; (I.D.)—Informal Decorative; (C.)—Cactus; (S.C.)—Semi-Cactus; (B.)—Ball; (Pom.)—Pompon; (Min.)—Miniature.

SPECIAL OFFER—Seven unlabeled dahlia roots, \$2.00. These are all good named varieties — some very finest. Supply limited. Will send roots with good eye or sprout but cannot replace any that fail to grow.

A FEW POINTERS ON DAHLIA CULTURE

Plant tubers 4 to 6 inches deep and about three feet apart in well worked soil. I usually plant from May 20th to June 10th. Do not plant near buildings or trees—they do best in full sun. Keep top soil stirred, allow no crust to form and keep free of grass and weeds. Do not water unless very dry—then soak thoroughly once a week—a slight sprinkling will do more harm than good. As the buds develop in groups of three—remove the two side buds leaving only the middle or terminal bud and you will have large flowers with longer stems.
